PROFESSIONAL SUMMARY

Cybersecurity Specialist with 2+ years of experience in banking-sector security operations. Expertise spans WAF/IPS/SIEM management, threat modeling, cloud security (AWS, Azure), and AI TRiSM governance. Proven impact reducing enterprise phish rates from 10% to 1% across 25,000+ employees. Multilingual (English, German, Turkish) with international academic and remote work experience.

WORK EXPERIENCE

Cybersecurity Specialist | Türkiye İş Bankası

Ankara, Turkey | May 2024 – Present

- Reduced organization-wide phish rate from 10% to 1% through phishing simulation campaigns covering 25,000+ employees; delivered direct security awareness training to 1,400 senior managers.
- Reviewed, tuned, and maintained 500+ WAF, IPS, and SIEM rules and signatures to minimize false positives and maintain coverage against emerging threats.
- Designed and implemented AI TRiSM (Trust, Risk & Security Management) action plan; coordinated rollout with internal AI development teams to embed security governance into AI system lifecycles.
- Performed threat modeling on existing and newly acquired products; aligned findings to ISO 27001 and NIST CSF frameworks.
- Supported cloud security operations on AWS and Azure; conducted container security reviews and Docker configuration assessments.
- Developed Python and Bash scripts to automate security operations and generate real-time alerts for the security dashboard.

Security Engineer Intern | Fibabanka

Ankara, Turkey | Mar 2024 – May 2024

- Conducted third-party risk management assessments and authored operational playbooks for vulnerability and asset management.

Software Test Engineer | Virtual i Technologies

Switzerland (Remote) | Sep 2021 – May 2023

- Designed test plans and automated regression suites using Selenium (Java) with API testing; reduced manual testing effort across multiple product cycles.
- Produced structured test reports to communicate quality metrics to project stakeholders.

Software Developer Intern | LAYERMARK

United States (Remote) | Jan 2022 – May 2022

- Built web application features using JavaScript and Vue.js; contributed to TypeScript and HTML/CSS projects.
- Gained applied exposure to web security principles including OWASP Top 10 in a production environment.

EDUCATION

Postgraduate Studies, Cybersecurity | Saarland University

Saarbrücken, Germany | Oct 2023 – Apr 2024

Graduate-level coursework (non-graduating) | Modules: Security Testing, Penetration Testing, Network Security, Mobile Security, Threat Analysis | Language Certificate awarded by Universität des Saarlandes

BSc, Computer Technologies & Information Systems | Bilkent University

Ankara, Turkey | Sep 2019 – Jul 2023

Graduated Cum Laude | GPA: 3.35/4.00 | High Honor & Honor Student 2020–2023 | Coursework: AWS Cloud, Cloud Security, Cryptography, Authentication Protocols, Python, Data Analysis

SKILLS

Security Tools: SIEM, WAF, IPS, IDS, Firewall, IAM, OS Security Compliance

Specializations: AI TRiSM, Threat Modeling, Cloud Security (AWS, Azure), Container Security, Docker, Third-Party Risk Management

Frameworks & Standards: ISO 27001, NIST CSF, OWASP Top 10

Programming: Python, Bash, SQL, Java, JavaScript, Vue.js, R

Languages: Turkish (Native) | English – Full Professional (IELTS 8.0, TOEFL 114/120) | German – Intermediate

CERTIFICATIONS & AWARDS

Certifications: AZ-900 Microsoft Azure Fundamentals | Google Cybersecurity Certificate | Cisco Introduction to Cybersecurity | CompTIA Security+ (in progress, 2025)

Awards: 1st Place, Robotics – Bahçeşehir University | Pass with Distinction PAE – University of Cambridge | Bilkent High Honor & Honor Student 2020–2023
